CHAMPION, ALBERTA THURSDAY, JULY 27 1939

NO. 31

Wedding Bells

A very pretty wedding of local interest was solemnized in the United Church at Strathmore on Saturday July 20th, when Miss Mary Folk of Carmangay became the bride of Mr. Walter Mercer of Strathmore. The officiating minister was Rev. V. N. Gilbert.

Miss Folk has been on the Strathmore School Staff for some years and has been a great asset to the community, especially in the musical line.

The church was beautifully decorated with delphiniums and gladioli in pink shades, pink sweet peas and bachelor's buttons.

The bride, who was given away by her father, Mr. C. W. Folk of Carmangay, was very charming in a beautiful dress of light blue silk lace and large blue flower hat. The bridesmaid, Miss Margaret Gordon, wore a dress of pink net.

During the signing of the register, W. W. Folk, of Etzikom, brother of the bride sang "I Love You Truly".

After the ceremony a reception was held in the memorial hall, where about one hundred guests sat down to a delicious lunch.

Later the happy couple left by car for Banff and Jasper. On their return

Picture Butte Sports Day

TADDY GETS RUNS

Entered in a 3 game tournament at Picture Butte sports day Champion played, and took a trouncing from the Elks of Foremost. The game began with Slim Haines on the mound and Hap Rae receiving. Champion, however, got off on the wrong foot from the first and played sloppy ball through the entire game.

The first two innings were scoreless but in the third P. Bouyzon made the initial run. In the fourth, however, the Elks scored 3 times while F. Bouyzon struck out with bases loaded.

Foremost collected 4 more in the fifth. Fred Watts pinch hitting when Champion again loaded bases, connected for a slow grounder to second base. Haines was pulled and replaced by Walker who held the Elks with no runs. Champion finally succeeded in gaining a second run in the last inning, making the final score 7 to 2.

At no time did the home team play the kind of ball they did in the first game of the White Lunch series last Sunday. Nor did Slim Haines display the high class hurling of Sunday Credit, however, goes to J. Walker for putting the fighting spirit back into the team and shutting out the Elks in the 3 innings he pitched.

The second ball game of the day was played between the Butte Royals and the previously victorious Elks.

Hoplessly outclassed by the smooth work of the Butte Team, Foremost faltered and erred through 9 innings of very low grade ball. Foremost's only run was a homer, but therein lies a very funny story. The batter drove a line drive over 1st base and into the cars along the edge of the field. It was really only good for one base but neither the 1st base man or the right fielder could find the ball. After three or four minutes of intensive search over, under, and around the parked cars the ball was found—in the mouth of a little bull terrier named Taddy. He gave up the ball and the game went on—but Foremost had scored a run to save themselves from a 16 to 0 defeat.

Excellent track features divided the ball games, and in the evening twelve handsome trophies were presented to the winners.

Under the auspices of the Canadian Sunday Mission a summer vacation Bible School is being conducted July 31st to August 11th for the children. Teachers are Miss Munson and Miss Odlin.

Owing to the difficulty a vacant house it is being held at the home of Mr. A. Davies.

The children are taking an active interest with 30 enrolled for the first day. An increased attendance is expected owing to those who come in "Fishing".

Clayton O. Crane Wins Degree

Continuing a brilliant record started in Champion, Alta. schools, continued in Calgary and in the United States, Clayton O. (Spike) Crone, 32, son of Mr. and Mrs. R. C. Crone, 613 13th Ave. West, was recently awarded his Master's degree in civil engineering at Colorado State College.

Born in Flint, Michigan, Mr. Crone came to Alberta at the age of four.

He won a B. Sc. degree at Logan, Utah, and graduated as civil engineer at Denver. He started work with the U. S. Bureau of Reclamation as govt. inspector in 1936 on the Ogden River Prospect.

Assistant Principal Resigns Post

Leslie Waller of Elnora, whose application as Assistant Principal had been accepted by the board, tendered his resignation Monday. It is understood that Mr. Waller has accepted a position at Warner. As yet no teacher has been appointed to fill the new vacancy but arrangements will be completed shortly. The fact that a certificate for the teaching of dramatics is required definitely limits the field.

Housing arrangements cannot be completed until the appointment is made.

JOINT LUTHERAN PICNIC

Lutheran Congregations from Claresholm and Vulcan held a picnic at the Bar U last Sunday. In attendance were Rev. Fred Ulmer of Vulcan and Rev. Wark of Claresholm.

Swimming and ball playing were the sports enjoyed by the 150 persons attending.

Rev. Ulmer left Monday for Wisconsin where will be married.

they will make their home on the bridegroom's farm near Strathmore. Out of town guests included Mr. and Mrs. Folk of Carmangay, Mr. and Mrs. W. Folk and daughter of Etzikom, Mrs. C. L. Taylor of Claresholm, Miss Elva Brownlee of Edinborough, and Mrs. G. Taylor of Carmangay.

K. R. McLean, Optometrist and Optician, Calgary, will be in Carmangay at the Drug Store Tuesday morning, Aug. 15th and in Champion at Drug Store in the afternoon. Consult at Calgary office 209 Southam Bldg. last four days each week.

The Prairie Farmers Assistance Act, 1939

PURPOSE OF THE ACT.—The Prairie Farm Assistance Act, 1939, is intended to aid farmers in years of distress. This Act provides a measure of insurance to farmers who suffer low yields. There are two provisions in the Act, one dealing with a crop failure and one dealing with "emergency conditions". An emergency year is any crop year in which low prices, low yields, and general conditions over which the individual has no control combine to make the position of the prairie farmer difficult beyond the financial care of the individual, municipality or province.

A. Crop failure Assistance:

The crop failure assistance applies if the average yield is 5 bushels or less in 135 townships (about 15 municipalities) in Saskatchewan or 100 townships in each of the other two Prairie Provinces. A provincial Government must make application to the Minister of Agriculture before August 15 in any year, if it wishes to receive benefits under the Act for crop failure assistance for its farmers. When a crop failure area has been declared by the Governor-in-Council in any province, all townships having 5 bushels or less will receive benefits under the Act and each farmer residing in such townships shall receive a payment of \$250 per acre on one half of his cultivated acreage. The maximum number of acres on which he can receive payment however is 200 acres so that the maximum amount of crop failure assistance a farmer can receive is \$500. In the case of a crop failure, the minimum a farmer may receive is \$200 regardless of the size of his farm. Monies will be paid under the crop failure assistance section of the Act regardless of the price of wheat.

(B) Emergency Year Assistance

This is the basis for 1939-40 and for any succeeding year declared an emergency year.

1. If the average yield is 4 bushels or under, the payment will be \$2 per acre on half of the cultivated acreage of the farmer for each farmer living in a township having such average yield. Here again the maximum number of acres on which a man can receive payment is \$200, so the total payment to a farmer cannot exceed \$400. The 1939-40 payment will be made regardless of the price of wheat.

2. If the average yield is over 4 bushels and not more than 8 bushels in a township, each farmer residing therein will receive \$1.50 per acre on half his cultivated acreage up to 200 acres with a maximum payment of \$300. The farmer with 100 acres cultivated would receive \$75. The 1939-40 payment will be made regardless of the price of wheat.

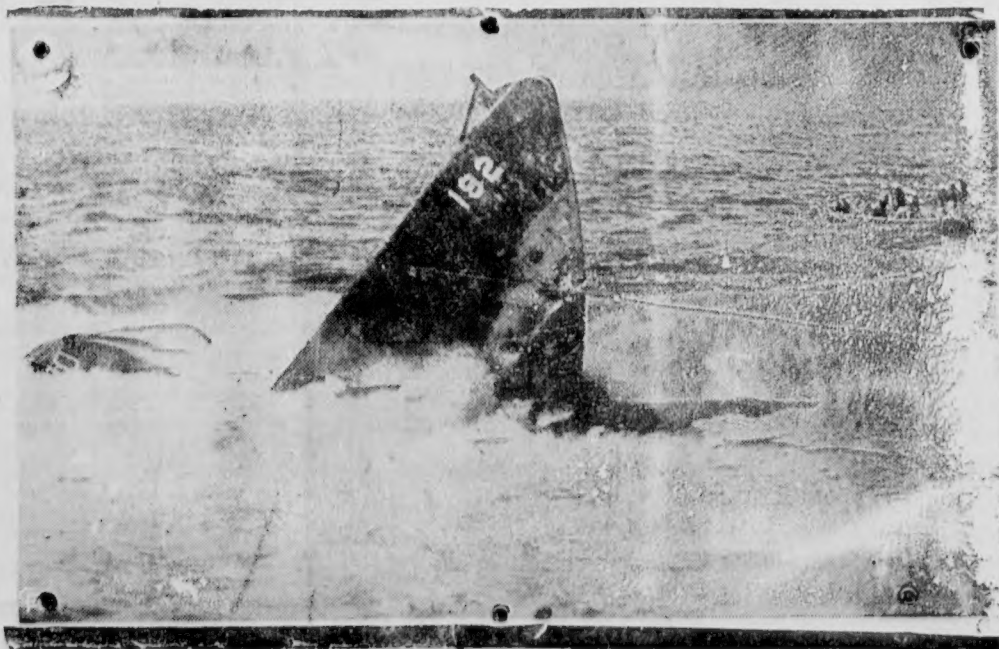

3. If the average yield is over 8 bushels and not more than 12 bushels in a township each eligible farmer residing in such township shall receive one dollar per acre on half his cultivated acreage, but he cannot be paid on more than 200 acres so that the maximum amount a farmer may receive who lives in a township with a 9 to 12 bushel yield is \$200. A farmer will only receive this amount in this class of township provided the average price is 70 cents or less per bushel for No. 1 Northern cash wheat. For each cent the average price is above 70 cents, 10 cents per acre will be deducted from the acreage payment so that a 80 cents the award will disappear. For instance, if the average price is 75 cents a farmer with 400 acres cultivated would receive 50 cents per acre on half of 400, which is 200 acres, a total of \$100.

ALSTON HIGH SCHOOL

At Date of publication we have no definite word concerning the erection of a school building for grades 9, 10 and 11 to serve the Alston community. It is understood, however that

the lumber will be supplied by the Macleod School Division and the work done by volunteer labor. Both Hiawatha and Auburn schools may be closed and the children from these districts will attend Alston Public School.

U. S. Submarine Brought Briefly to Surface

JOCK'S WAGGIN' TONGUE

Vol. 3 Thurs. July 27 1939. No. 26
Jock McIntyre, Editor

A current magazine says that a typical Canadian is one who will fight to defend the church he stays away from on Sunday. And we've noticed too that it is typically Canadian to knock your community while at home and then boost to beat the band as soon as you get away from home.

The new Beatty engine drive washer is on display. It's as new as tomorrow, bottom roll wringer, white porcelain tubs, Briggs and Stratton engine, and at greatly reduced prices.

Champion put up two good ball games last Sunday at Picture Butte for the White Lunch cup but they failed to be good enough.... However 5-4 in 11 innings is tops base ball.

The new Chevrolet trucks are here. Come around and give them a look over. They are worthy of your attention.

Frank Kramer seems to have done himself proud and is receiving congratulations from all sides.

Depue seems to be rather a rank outsider—Frank rather running away with all the thunder.

For your repair job we have sheets in all lengths, widths and gages that you will need.

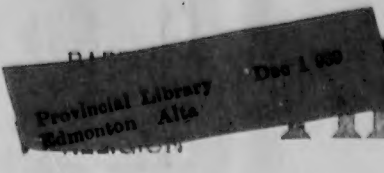

After last Sunday it would seem that the fighting Latiffs have not all left town yet.

Belt lace! Either leather alligator or that good clipper wire lace—we have them all.

We wouldn't just exactly try to explain why Art Ulrich was in the Carmangay hospital, but we do know he didn't stay long.

Come in and look over our small tool line. It is complete, popularly priced and every price is guaranteed.

Masons to Rebuild At Carmangay

Remodelling Structure on Site of Fire

Members of the Robert Burns Lodge A.F. & A.M. Carmangay have taken action to restore their home which was gutted by fire. At a meeting held last week it was decided to rebuild on the site of the present hall. Work has already started.

The upper storey of the building will be removed and more space given below. There will be dressing or robe rooms to the right of the entrance. The whole structure will be painted in side and out and otherwise will be made attractive.

The Lodge are to be commended for their prompt action in providing a Temple for their work.

Study Necessary to Achievement

Editor to Hear Words of Wisdom from Distinguished Leaders and See Wonders of Modern World

Realizing that in this day and age one must study to keep abreast of the changing conditions the editor of this paper leaves this week end to attend the annual convention of the Canadian weekly news paper Association being held in Niagara Falls Ont. with a side trip to the world's Fair at New York N.Y.

While there is an abundance of social entertainment including musicals in New York the trip is by no means a pleasure jaunt but on the contrary will be an intensive study of matters relating to newspaper and public service in general. The attendance of the editors and their ladies is made possible through the courtesy of the Canadian Railways.

Venue for the convention is the picturesque Niagara Falls the convention hall being the General Brock Hotel.

Opening Thursday morning the welcome luncheon will be given by the Mayor of Niagara Falls, presiding. The address to be given by Louis Burke Duff of Welland. Afternoon agenda will include, beside business, an address by Dean Lyle Spenger editor of New York press Syracuse University on the weekly press tomorrow and what we must do to be saved. Then the dinner will be given by the Niagara Park Commission, the Hon. W. L. Houck presiding. The guest speaker will be D. Doland chief Canadian travel bureau, department of transport.

Friday will be taken up with study of various problems but will include address by Frank B. Hutchinson, manager of the New York press association in looking across the border. An inspection of the Canadian Cyanamid plant the company also provide the complimentary luncheon. The ladies will be provided with programs of special appeal and both ladies and men will join in sightseeing and complimentary musicals, a dance and theatre parties.

Line Elevators Join in Forming Pool for Wheat

Pool Will Enable all Farmers to get Government's 60c Price Guarantee

Winnipeg, July 27—Line country elevator companies will operate a wheat pool under the legislation passed at the last session of parliament, it was officially announced today. The Pool will be in operation in time for the handling of the 1939 crop and efforts are being made to have the Canadian Wheat Board act as selling agent for the Pool. Line companies operate 3,500 country elevators throughout Western Canada.

A statement issued by the North West Grain Dealers' Association announcing formation of the Pool reads:

"It is the intention of the Line Elevator Companies to secure for farmers advantage of legislation passed by the Dominion Government last year, and form Wheat Pools. Under the terms of this legislation, the government guarantees such pools a price of 60c, basis No. 1 Northern in store, Fort Win. but this guaranteed price has to cover all costs of selling, so that the initial advance would necessarily have to be substantially less the 60c. However, should the market decline much further than it has at present, the initial advance might easily be higher than the market, and the Elevator Companies feel, therefore, that they want to offer a means to their customers of securing any such advantage.

Strenuous efforts are being made to get the Wheat Board to act as the Central Selling Agency for all those forming pools, as it is considered in the best interest of Canada that there should not be two competing Selling Agencies.

"There is some discussion amongst the Line Companies concerning the formation of a coarse grain pool. Whether or not this is done will be dependent entirely on whether or not the initial payment set by the government is high enough to be attractive to their customers."

Local Test Plots Show Varieties

Local People Invited to Inspect Grains

Situated opposite the home of M.C. Clever is the experimental or seed testing station of three local elevators—the Alberta Pacific, the National and the Searle Grain—and it is worth the while of anyone to journey out there to see what has been accomplished.

On Tuesday a member of the Chronicle staff was driven there by F. Clever and shown the fine stands of grains grown in the plots. There are nine varieties of wheat, seven varieties of oats and nine varieties of barley all being clearly marked.

Purpose of the plots is to show the public the true character of each of the varieties of grain, and this has been accomplished perfectly the growth of all types being satisfactory.

In addition to the above there is also corn and soybean shown in plots by themselves. Those who have visited the larger experimental stations realize the importance of such a local test field and the local people should take an interest in same and visit the field.

A Force for Unity

In a recent issue of the Toronto Globe and Mail a leading editorial comments upon the annual communication of the Grand Lodge of Canada, A.F. & A.M., in the province of Ontario and some parts of the editorial containing words of common sense and facts regarding Masonry are quoted below for the benefit not only of members of the local order but the general public.

"The communication of the Grand Lodge of Canada, A.F. & A.M., in the province of Ontario, is an important event in the world of fraternity. It was attended by approximately 3,000 delegates; but it is the calibre of these rather than the number that attracts the attention of the general public. They are men of substance and common sense; each active in the affairs of his community and well informed on national issues.

"The Masons of Ontario enjoy the respect of the people of Ontario. They are good citizens and they exemplify the spirit of fraternity—the fellowship of man, of which a distraught world is sadly in need. There is no doubt about the loyalty of Masons to the spirit of national life held sacred by all true Canadians.

"In a call for unity and democracy, retiring Grand Master W.J. Dunlop outlined the objectives of the order: 'If the Masons belonging to each of our Grand Lodges will take the lead, each in his own circle, in promoting cohesion, in settling aside personal and selfish differences, and in producing the true Masonic spirit, the influence of Masonry will be so great, so positive that its contribution to the cause of national unity will be incalculable.'

"Any organization of men animated by this spirit will not be touched by any of the wild 'isms' whose adherents are carrying on propaganda work in this country. It will stand by the British conception of democracy. Hence the man elected to lead the hosts of Masonry in this Province faces both opportunity and obligation."

'JOCK'S WAGGIN' TONGUE

Vol. 3 Thurs. July 27 1939, No 25
Jock McIntyre, Editor

We have been wondering lately what has become of the guy who was wishing for some sunshine and hot weather about a month ago. If you locate him see if he still has the same idea and let us know.

Just arrived, Table Oil cloth, in 45 and 54 inch fresh stock up to date patterns.

RED JACKET WATER SOFTENERS
—We have several out in 4 districts with good reports. They really do their work!

Nickel-Chrome splinterless Chisels can be sharpened with a file. Unconditionally guaranteed and Priced Right.

Wm. Penn heavy gun grease is really good. Bring in your car—We would like to have you give it a trial.

Ira Watkins and family left today for their home in Mich. Ira says it won't be 13 years before he is back this time.

The Coleman line of gasoline Ranges, camp stoves and Irons are a big help during the hot weather.

R.I. Baker is in town packing for his move to Coaldale. Success to you, R.I.

The gallon size picnic jugs are a real item for camping and are very reasonably priced.

Roy Robinson is spending a few days in town.

Someone said Champion played ball in Lethbridge on Sunday but others seem to doubt it.

Johnny says that the water is fine out at Lake Long and that there is no ticks there.

"What is home without a mother?" asked the young man.

"Well," replied the sweet young thing "I am tonight."

Canadian Farmer Cucamonga Visitor

Mr. and Mrs. Walter Nelson of Carmangay, Alberta, are guests at the home of A.N. McIntyre, East Foothill home, Leeward, Cucamonga. Greatly impressed with Southern California, the visitors are being entertained by their former friends in Canada. Mr. Nelson farms more than 1000 acres of rich wheat land. The San Francisco fair will be included on the visitors' itinerary.

SOFTBALL

Carmangay "Flyers" and the Barons' softball teams met at Carmangay on July 21st in a hard fought and hard won game which resulted in a 16-15 victory for the Flyers.

One of the highlights of the game happened when L. Rumley of Carmangay knocked a 3 bagger bringing home 3 runs and also when Mr. Hodges, a star player of Barons staged a homer when bases were loaded.

Premier to Speak

Will be at Barons on August 4th

Announcement is made that Premier William Aberhart will speak in Barons on Friday, August 4th at 2 p.m. He will be speaking in the riding of Hon. Peter Dawson at Barons and Arrowood.

It is anticipated that a large number from Champion, Carmangay and other sections of the Constituency will attend to hear the address of the Premier.

SOCIAL CREDIT NOTES

The Champion Ladies' Social Credit Group will meet at the home of Mrs. Hargrave Tuesday, August 1st at 3 p.m.

ions while musicals and entertainment of international fame as well as concessions at the world Fair will be provided free. Needless to say the wonders of the Fair including the latest inventions will be explained and outstanding speakers will address the guest pressmen.

Thus The Chronicle will be privileged to hear, see and enjoy the finest and outstanding course of study any Canadian editor could take in the space of one week and will be able to impart to the readers some of the events which are causing not only concern but joy to the human race.

The staff will carry on in the absence of the editor and the co-operation of advertisers, readers and patrons of the job work department will be appreciated. He will be gone only two weeks.

The Chronicle

Cancellation—We find that our subscribers prefer not to have their subscriptions interrupted in case they fail to remit before expiration. Subscriptions will not be carried in arrears over six months, but we presume the subscriber wishes the paper continued unless cancelled.

- Editorial -

British Justice

A FEATURE of British constitution is its administration of justice and we note with pleasure the attention which is being given to the appointment of the Penal Commission which will administer the penitentiaries in Canada, and have oversight over all jails, replacing the one man Board.

We have made a special study of the penal system in Canada particularly as it affects the juvenile delinquency having had the guidance of such men as Rev. Harry Atkinson and Judge Hamilton, both recognized Canadian authorities on the subject and we feel that too much attention cannot be given to our whole penal system.

The aim of confinement in a jail or reform school is to remold the character of the inmate as well as punish. It is a fundamental principle that when a person is convicted and serves the sentence, whether he is paroled before the expiration of the period or not he is turned back into society a free man and no one has a right to cast a reflection on his honesty. He or she has paid the price and it is the duty of the public to show their own true citizenship by extending the right hand of fellowship in more than a formal grip.

Human nature is frail and from our own study of the matter we believe that much of the crime, and this is especially true of what is termed repeaters, could be prevented if the citizens extended a sheltering environment and built up the character of the one released by helpful guidance and companionship.

Letter to the Editor

DEAR SIR:

Can Kehoe Dome Oil Stock ever reach \$10.00 per share?

It sounds crazy. But let's see what the possibilities might be.

When a certain oil well, which was estimated at 75 bbls. per day came in a few years ago, the daily papers made quite a fuss about it, and as a result other oil companies were organized to drill in that area.

Some of us here in Barons, who had held for years, some well selected small acreage on the Seabby Butte structure, east of Barons, felt that we had a much better proposition out there, and as I have already told you in a previous write up, we brought down from Calgary, three men who were considered able authorities on oil structures, and what they found there convinced us that we really had something worth while, that would warrant the organization of an oil company to drill a well. The last gentlemen who went over the structure very carefully, marvelled at the location of our acreage. He selected the drilling site for our first well, and informed us emphatically, that we couldn't miss oil here.

A few weeks later he called me into Calgary and displaying a map he had drawn of our area, he said there is 1000 acres just open for filing on that acreage, every foot of it is 100 per cent. I urge you to get that acreage as quickly as possible, even if you have to steal the money to get it. (We raised the money, but we didn't steal it, and filed on the acreage.) Continuing he said I went over that Seabby Butte area in 1888 with Mr. Dawson, who was regarded as the best Geologist in his day. (We geologized most of the province of Alberta.) he said. And I remember well when we arrived at that location Mr. Dawson made this statement: "If oil is ever discovered in this province, here is where big production will be found." So said my friend, after going over this structure again, I am convinced that you will open up 1500 bbl. wells here at less than 4000 feet, and if you spend more than \$50,000 to drill this depth you will be wasting money, and your drilling time shouldn't be over ninety days. You will be swimming in oil there, he said to me. You people in Barons he said, have a liquid gold mine at your back door, and you don't know it. It sounds like a fairy tale," I said. This made the old gentleman a little bit peeved, and he said "I am an old man, having gone through the boom days. I am not just talking to hear myself talk, I am telling you what you have down there, believe it or not. We have learned some other startling things about Seabby Butte and the Black Spring Ridge area,

So we organized the Kehoe Dome Oil Company, to drill on our location of 1164 acres. After he had this company organized, I visited my gentleman friends home and showed him the set up of our company, he examined it thoroughly, then said you have the finest organized oil company for the shareholders in the Dominion of Canada, (I hope we have, but that is taking in a lot of territory.) But we have done our best because I want to see my friends who will invest with us on this proposition, get some real return when we get production.

My friend took out his pencil, and figured for quite a while, then he said, I predict that your stock in a few years will be worth a lot of money, for with even a 500 bbl. well you should be able to pay back the investor, in dividends, every dollar he invested in your Co. in 1 year after you have sold the oil, when you do that, he said, your stock will be worth \$250 per share from one well, and you have room for practically 30 wells, and I am telling you that you can expect 1500 bbl. wells, and what will your stock be worth with this production? Well that will be a matter of figures.

Well it does sound like a fairy tale, but we are hoping to make it a reality.

Farmers gamble every spring when they put in their crops—they don't know whether they will get their seed back in the fall. This Oil proposition of ours may be another gamble—we don't think so, otherwise I wouldn't spend five minutes of my time on it, or ask my friends to put a pickle in it. If we get the production we are told to expect can 1000 shares in Kehoe Dome, ever reach a market value of \$10,000, it has tremendous possibilities, and may be cheap at that.

Stock is selling for 25 cents per share, we are booking stock every day, to be paid for after harvest and we appreciate the support we have so far received from Champion and Carmangay and districts.

All money received from the sale of stock, is deposited with the Prudential Trust Co., Calgary. If something should happen that we can't begin to drill this well. 94 cents of every dollar invested will be returned to subscribers by the trust company.

Figure out this problem:

If one 500 bbl. well can make Kehoe Dome worth \$250 per share, what will it be worth with 10 such wells, and if you like you can multiply it all by 100, and estimate what it will be worth with 1500 bbl. wells? No wonder my Calgary Friend, thought our stock should be worth a lot of money.

We are trying to clean up the balance of the stock as quickly as possible. See the editor of the Champion Chronicle, get one of our circulars, study it and tell him how much stock you can take, and pay for after harvest.

If we bring in the oil well we expect, and you are not in on it, you will probably have to buy a new pair of pants—for you will feel like kicking the old ones to pieces.

We are now trying to complete a good drilling contract, get the derrick on the ground as quickly as possible so that drilling can begin, immediately after harvest. We want to get this well down by Xmas.

Yours for success,
S.A. Roberts, Barons.

United-Rev. Peter Dawson the minister. Service at 7.30 p. m.
Catholic service at 9 a m, Fr Riter in charge.

Go to church on Sunday... It will do you good and refresh your soul,

CANCER: A NEW APPROACH

A Discovery Concerning The Difference Between Normal And Abnormal Cells

CANCER is the second among the killing diseases. Every year some seventy thousand of our countrymen die from its effects, not in most cases without prolonged suffering. Enormous sums of money are spent upon research designed to discover its nature and to find new methods of arresting its progress. These methods have had some measure of success. Sixty years ago a permanent cure was an extreme rarity; today some 35% of all cancer patients could be cured by modern resources of radium, X-rays and surgery, if they would but seek skilled advice on the first sign of trouble. In actual fact over seventy per cent of cancer patients, when they are first seen by the doctor, are untreatable, and probably less than five per cent are restored to health. Although this slender proportion represents a saving of many thousands of lives, it is at once apparent there is a pressing need for the discovery of some totally new method of attacking the cancer problem.

LEGISLATION

PETROLEUM PRICES ACT

(CHAPTER VI.)

This Act provides that in case upon an inquiry held under The Public Inquiries Act, it is recommended either by an interim or a final report that the price to be paid for any petroleum product or any kind or description thereof be fixed in any manner, the Lieutenant Governor in Council may fix the price for petroleum products in any designated area or areas of the Province to be paid to producers, refiners, wholesalers, jobbers and retailers.

Any orders made pursuant to this Act are to be published in The Alberta Gazette and take effect on any later prescribed date and have the same force as if enacted as part of this Act.

When a price is fixed for any petroleum, agreements for the purchase or sale of petroleum in the Province in existence at the time the price is fixed are varied so that the price conforms to the fixed price.

The selling of any petroleum product in respect of which an order has been made at a price other than the fixed price is declared to be an offence punishable on summary conviction in the case of a corporation by a fine of not more than \$1,000 and costs and in the case of any other person by a fine of not more than \$200 and costs and in default of payment to imprisonment for a term of not more than 60 days.

This Act came into force on April 3, 1939.

The truth is that we do not know what is wrong with the cancer cell. We have found that certain things may cause cancer and other things may cure it but the inner mechanism of the normal cell and cancer cell are alike dark to us. All that can be said is that a great deal of research has elicited a few fundamental facts about the cancer cell. First, and perhaps most important, is the discovery of Rous, that cancer is not inherent in the cell as a whole but that the juice of certain growths from which all cells had been filtered can transmit the disease. Barnard and Gye, and later Gye alone showed that this filtered juice contained exceedingly minute particles, apparently closely analogous to the virus particles which transmit such diseases as rabies, influenza and foot and mouth disease, for it arose, as it were, spontaneously and without any of the circumstances of contagion.

(TO BE CONTINUED)

STANDARDS OF EDUCATION

by Rev. Peter Dawson

In the last issue of the Chronicle "J.B." invites answer to his question "What About It?" Had J.B. been following this series of articles on Educational Standards and had his few years as chairman of a school board been of value to him it would not be necessary to answer his question for he would have been informed. This is evident from the very first statement he makes: "to show the difference between the government of Gt. Britain and the system which is trying to be put into force in Alberta."

Now as I stated in a previous article they have the large school administration in Great Britain. In England 317 local school authorities are required to serve the educational needs of forty million people, while in Alberta alone until 1936 there were 3,734 school districts with 5,815 class rooms in operation and 11,300 school trustees looking after their needs. Alberta's population is around 800,000.

Again "J.B." takes a statement from a London paper. He does not give the name of the London paper nor does he state that it is an exact quotation—and concludes by saying "Notice the difference in this province—in all Canada for that matter—the government is not bearing ten per cent of the cost. It all comes out of the Property or business men. Not one cent of coming out of the general revenue of the province goes toward education. What about it?"

"J.B.'s" statements are not consistent—he says "The government is not bearing 10 per cent of the cost" and in the same breath he says "Not one cent coming out of the general revenue of the province goes toward education."

Now—the Government is spending in the fiscal year of 1939—1940 the sum of \$2,795,583.00 for education and its administration and this comes out of the general revenue of the province. When J.B. states "the government is not bearing 10 per cent of the cost" we take it that the province is paying something of the cost. Are we therefore to assume that Education and its administration in this province costs more than \$27,000,000?

Here are some of the expenditures: (Estimates 1939-1940)

Grants to schools.—
Elementary and Secondary schools \$1,218,812.00. Consolidated Schools \$120,856.00. In Aid of Technical Education 75,000.00. For School Libraries \$8,000.00. For night School \$3,100.00. For equalization grants \$340,000.00. Miscellaneous grants \$14,000.00. Education of Soldiers' Children Act \$10,000.00.

Space does not permit further statistics.

Under the present financial system it does not matter who distributes the money or who collects it. It all comes out of the Peoples' Pocket. Give Alberta control of her own credit and the Provincial Government will relieve the taxpayer of the load.

The Minister of Education holds this portfolio without salary.

SAFETY LEAGUE IS ORGANISED

An Educational Campaign designed to focus the attention of the community on the accident situation in Alberta is being launched by the Alberta Safety League, a non profit, non partisan, province wide organization recently formed to promote public, industrial and home safety. It will enlist the support of the public in the safety movement, develop a safety consciousness in the individual, and bring about popular disapproval of traffic violations. It is designed to reach the Child, the Youth and the Adult.

Safety organizations in England, the United States and Canada, operating during the past twenty five years have proven that through co operative effort, properly directed, Streets, Highways, Industries and Homes can be made better and safer places in which to work and live, but to assure this we ALL must play an important part in this great accident prevention cause.

This safety movement in Alberta is under the distinct

guished patronage of His Honor Lieut. Gov. J.C. Bowen, Premier William Aberhart and the Hon. J.A. MacKinnon, P.C., M. P. and includes among its sponsors Mayors, Highway and Traffic officials, Enforcement Officers and School superintendents, as well as many other interested Alberta citizens.

The policy of the League is as follows:

"The Alberta Safety League's objective is the elimination of street, highway and all other accidents as deplorable, unnecessary and wasteful. It seeks the support and co operation of the Provincial and Civic Governments, School Boards, Safety Bodies, Business corporations and individuals to insure that its services may provide the instrumentalities and finances to accomplish this objective.

Through a campaign of Education it seeks to demonstrate that the safe way is the right way and the best way, from the standpoint not only of human satisfaction but of social efficiency and economy. It seeks

W. I. HARRIS

CHAMPION,
ALBERTA

It is better to buy an

OLIVER

than wish you had

You can harvest faster and better with an
Oliver Combine. Why? First: no delays from a
breaking canvas--or one that has to be unfastened
every night at sign of storm--and then: tightened up
again

Another fact--Our machines stand up to
heavy demands. If, however, you do need repairs
we can give you minor parts from our stock. If we
do not happen to have what you require, there is a
daily service from Calgary at noon and one from
Lethbridge, so you can be assured of service for any
parts needed.

MAIN STREET

Mr. and Mrs. Harry Smith and mother
Mrs. Mervin Smith have returned from
a short trip to Edmonton where they
were guests of Dr. and Mrs. D. B.
Lelick. En route home they visited
with Mr. and Mrs. Howard Smith at
Palmer and Mrs. Alex Gosselt at Le-
combe. They report that the crops
here are further advanced than in
some of the other districts.

R. W. Peck of Calgary is selling
agent at the C.P.R. during the ab-
sence of Mr. Taylor on holiday.

Mr. and Mrs. C. G. Taylor left Tuesday
for San Francisco where they will en-
joy a holiday.

Miss Gladys Anderson has been sel-
ected as teacher at Roundhead school.
Mrs. Ed. Schand, who underwent a
major operation in the Carmangay
hospital on Sunday, is making fair pro-
gress.

Helmer Anderson left Saturday for
Calgary. Accompanying him were
Miss Jane Anderson and John Ander-
son, who will spend several days vi-
siting at the home of their grandpa-
rents, Mr. and Mrs. Anderson.

Mrs. Jack Porter, who was a visitor
at the home of Mr. and Mrs. J. D.
Henderson during the past week, left
Saturday for McLeod, where she will
visit with Mr. and Mrs. Cuthbert for
a few days.

Mr. and Mrs. Geo. Harper are at
present residing on the J. Harper farm
during the latter's absence in Calgary.

Miss Mae Moffatt of Lethbridge is
at present a Champion visitor, where
she is renewing old acquaintances.

Mr. and Mrs. Robert Todd, Iran
and Dean Todd left Friday for a trip
around the Banff-Windermere Trail.

The George Desnoere mine has been
awarded the contract for the supply of
250 tons of coal to the school division.
It was learned Wednesday.

Again local ball players brought
home the bacon. At Barons on Wed-
nesday they won, taking home \$25.00
each. The sports at Barons was
successful.

Many local business men attended
the crop-testing field day at Vulcan
Wednesday. Samples taken indica-
ted that the grade of local wheat was
well above average. Lectures were
given by staff representatives of the
Dominion government, and the need
for high grade wheat was stressed.
Sunt free wheat had increased the
value of grain in one year 58 millions
of dollars and other such factors--
there were other ways in which the
strain of the grain could be improved.

Carmangay

In a further effort to raise funds to
pay for the transportation of a "Iron
lung" gift of Lord Nuffield, to the
Little Bow hospital, Carmangay, the
east branch of the women's hospital
auxiliary held a strawberry tea at
the spacious home and grounds of Mr.
and Mrs. Frank Hauser on Friday af-
ternoon.

Ball and other sports were enjoyed.
Tea was served at small tables, the de-
licious home grown strawberries hav-
ing been donated by Mr. and Mrs.
Hauser.

The sum of \$85.50 was realized by
the afternoon's effort which, added to
the money made recently at a tea held
in Carmangay, is almost enough for
the object in view. Many other offers
of help have been received by mem-
bers of the auxiliary from various sec-
tions of the hospital district and steps
will likely be taken to secure the Iron
lung at once.

Mrs. Wm. McFarlane and her son,
Douglas returned from Coleman last
week.

Mr. and Mrs. Leonard McGinnis and
Mr. and Mrs. Clarence White family,
also Eric Collier Motored to Bow Is-
land, and visited at the home Mr. and
Mrs. Hugh Ross.

Mrs. Wm. and Miss Peacock motored
to Calgary Sunday, where they will
remain for a week.

Mr. and Mrs. Schneider and young
son, of Calgary, visited at the home of
the latter's parent, C. E. Clausen, on
Friday.

The Ladies' Aid will hold their regu-
lar meeting on Friday afternoon on
August 4th at the home of Mrs. A. J.
Lawrence.

A special meeting of the women's
hospital Auxiliary will be held on Sat-
urday evening, August 31st, at 8:30 in
the town office.

The fifth Sunday in the month
being service to Emmanuel Church at
3 o'clock in the afternoon. Canon
Winter will be in charge.

Barons

Miss Bella Brown of Brooks is visit-
ing her sister, Mrs. Earl Burns. She
is planning to spend about a week in
Barons.

Miss Lucille Pixton is a guest at the
home of her Aunt Mrs. Glen Hughes.

A delightful afternoon was held at
the Kottelson home for Miss Olive
Auerbach who is to be married in the
near future. Musical entertainment and
contents made it a very enjoyable
afternoon.

Mr. and Mrs. Z. O. Onsey left for
Edmonton to bring home their daughter
Betty who is training in the uni-
versity hospital. They are coming
back by way of Sylvan Lake.

Seven local girls are leaving Friday
for Weyburn for a two week's stay.
Mrs. R. Kothas is accompanying them
as chaperon.

The Indian boys and Victor Raw
are attending the World's Fair at San
Francisco.

Beverly Roberts, Dora Williams
(Lethbridge), Guy Roberts, John Mc-
Farland were week-end visitors at
Barons.

Marvin Popham and family, H. Mc-
Farland are visiting at the home of his
parents, Mr. and Mrs. E. Popham.
